ACTIVE — 5 candidate(s)

VRDN | Score: 31.5 | Profile: binary_catalyst | Stage: active

VRDN — Veligrotug PDUFA (Thyroid Eye Disease)

Status: ~Active~ → · Strategy: FDA PDUFA · Identified: 2026-04-09 · Updated: 2026-04-16

Key dates: e 30, 2026, n 30, 2026

Rationale: Viridian Therapeutics has a near-certain FDA approval upcoming for veligrotug, an IV anti-IGF-1R antibody for thyroid eye disease (TED), with a PDUFA date of June 30, 2026. The BLA was granted Priority Review and Breakthrough Therapy designation, and both Phase 3 trials (THRIVE for active TED, THRIVE-2 for chronic TED) met all primary and secondary endpoints with robust efficacy data. The probability of regulatory approval is high.

AXSM | Score: 30.8 | Profile: binary_catalyst | Stage: active

AXSM — AXS-05 Alzheimer Disease Agitation PDUFA (April 30, 2026)

Status: ACTIVE CANDIDATE · Strategy: binary_catalyst · Updated: 2026-04-16

Key dates: l 30, 2026, 2026-04-30

Rationale: What the market appears to be pricing (implicit): ~45–55% approval probability, based on modest pre-PDUFA run (+5.6% Apr 9) vs. the \$230–245 sell-side price targets.

VERA | Score: 30.5 | Profile: binary_catalyst | Stage: active

VERA — Vera Therapeutics — Atacicept IgAN BLA — PDUFA July 7, 2026

Status: ACTIVE — Hold · Strategy: FDA PDUFA Calendar · Updated: 2026-04-16

Key dates: y 7, 2026, 2026-07-07, 2026-04-12, y 7 2026

Rationale: What the market sees: Another IgAN drug in a crowded field, behind sibeprenlimab (APRIL-only, approved Nov 2025, \$292.5K/yr), iptacopan, sparsentan, atrasentan, budesonide. Consensus models a modest commercial trajectory and values VERA primarily on the binary of FDA approval.

RPAY | Score: 30.0 | Profile: activist_governance | Stage: active

RPAY — Forager Fund vs Repay Holdings Poison Pill

Status: Active — DUAL ACTIVIST (Forager + Veradace) · Strategy: EDGAR (governance keyword: "rights plan" + "poison pill") + · Identified: 2026-04-15 · Updated: 2026-04-16

Key dates: 2026-04-14

Rationale: On 2026-04-13, RPAY's board adopted a stockholder rights plan (poison pill) with an unusually aggressive 12.5% triggering threshold. The same day, activist hedge fund Forager Fund, L.P. (Birmingham, AL; managed by Robert MacArthur and Edward Kissel of Forager Capital Management, LLC) filed a SCHEDULE 13D/A Amendment No. 2 disclosing a 12.9% stake (11,106,648 shares) as of 2026-04-09.

RGR | Score: — | Profile: activist_governance | Stage: active

RGR — Beretta Holding Proxy Fight

Status: ACTIVE — new candidate, created Session 62 (2026-04-15) · Strategy: Activist proxy contest (EDGAR) · Identified: 2026-04-15 · Updated: 2026-04-16

Key dates: y 27, 2026, 2026-05-27

Rationale: Beretta Holding S.A. (the Italian firearms conglomerate and Sturm Ruger's largest individual shareholder at 9.95% / 1,587,000 shares) has launched an activist proxy fight to replace five long-tenured directors on RGR's board at the 2026 Annual Meeting — an unusual industry-insider activist campaign with credible strategic leverage and asymmetric outcome distribution (settlement, board refreshment, or strategic transaction optionality), yet the stock has absorbed the Apr 7 PREC14A announcement with only a +4.2% drift and volume is *declining*, suggesting the market has not repriced for a plausi
